Nauti Yacht Sales provides professionalism, expertise, experience, and quality results in buying or selling your yacht.

**SHAWN HARRIS**

I have been in the yachting and boating industry for over 35 years. My broad mechanical marine exposure has helped me to create a reputation for being knowledgeable, skilled, and trustworthy.

I hold numerous certifications and qualifications in Yamaha, Mercury, BRP, Johnson, and Evinrude engines. I am also well-rounded in maritime engineering as a whole.

I believe in working hard, doing business with honesty and integrity, and helping my clients determine the best overall vessel to satisfy their needs. Part of my service is to inspect a vessel prior to a client's visit to ensure they are not wasting time looking at a vessel that does not pass my own level of expectation.

# FREE INSPECTION

**\$300,00 Value**

For the Listing / Sale or Survey and inspection of your Vessel. I will provide at no extra cost to you a Visual and Mechanical inspection before the Listing or the Sale of your boat. So when we have a buyer, and we go to survey, there are no surprises that we were unaware of, which makes the process so much easier and smoother.
